

Wireless LAN / CNE Tool Training Course and Evaluation

December 15-16, 2010

 and 

Classification

**The overall classification of this presentation is
TOP SECRET//COMINT//NOFORN**

**The majority of the materiel in this presentation is
UNCLASSIFIED**

**Some information though is classified. That
information will be marked in the slide title.
Consider any nontitle classified slide, unclassified**

Example

This is unclassified

(TS//SI//NF) Classified Example

This slide would be classified

Primary Course Objective

- To familiarize, educate, and certify students in the operational usage of WLAN / IEEE 802.11 CNE tools and techniques to include:
 - BLINDDATE
 - NIGHTSTAND
 - BADDECISION

Secondary Course Objectives

- Understand the fundamentals of the WLAN / IEEE 802.11 protocol.
- Learn the end-to-end CNE process for close proximity WLAN operations.
- Gain familiarization in WLAN network protocol analysis.

Course Elements

- **Lectures**
- **Demos / Labs**
- **Evaluations**

Agenda

- **Review of Fundamentals**
- **Introduction to WLAN / 802.11**
- **BLINDDATE**
- **WLAN CNE Operations**
- **NIGHTSTAND**
- **BADDECISION**
